

Breakout Group Activity #1

What does a successful IET program look like?

15 minutes

Facilitator Instructions:

1. Work with the breakout group members to come to a consensus on two or three sentences that describe a successful IET program.
2. Start by having participants brainstorm key words to get ideas flowing.
3. Then have them craft the success sentences using some of those key words.
4. Capture key words and document the success statements.
 - [If in-person] Use the next page of this handout to capture the information.
 - [If virtual] Open the **2.B2_Design_Plan_Breakout_1_Facilitator_PPT_Virtual.pptx** and share your screen. Capture the information directly on the slide as the group works through the activity.
5. You will share these sentences with the larger group during the activity debrief.
[If virtual] Copy and paste the sentences into the chat window once you are back in the main room.

A strong success statement might include the following:

- Clearly defined program goals
- Reliable funding sources
- Clear communication
- Committed partners
- Engaged stakeholders
- High learner completion rate
